Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CONTENTS

PAGE

On Systems of Multiform Functions Belonging to a Group of Linear Substitutions with Uniform Coefficients. By E. J. WILCZYNSKI, ... 85

The Partial Differential Equations for the Hyperelliptic Θ- and σ-Functions. By OSKAR BOLZA, ... 107

On Certain Differential Equations of the Second Order Allied to Hermite's Equation. By EDWARD B. VAN VLECK. 126

Note on Differential Invariants of a System of m Points by Projective Transformation. By EDGAR ODELL LOVETT, ... 168

Proof of Brioschi's Recursion Formula for the Expansion of the Even σ-Functions of Two Variables. By OSKAR BOLZA, ... 175

Note to Professor Craig's Memoir, "Displacements Depending on One, Two and Three Parameters in a Space of Four Dimensions." By E. JAHNKE, . 191

The American Journal of Mathematics will appear four times yearly.

The subscription price of the Journal is $5.00 a volume; single numbers $1.50. A few complete sets of the Journal remain on sale.

Subscriptions from countries included in the Postal Union may be sent by international money order, payable to *Nicholas Murray.*

It is requested that all scientific communications be addressed to the EDITOR of the American Journal of Mathematics, and all business or financial communications to The Johns Hopkins Press, Baltimore, Md., U. S. A.
